**HEAD & NECK**  
CANCER SOCIETY  
RESEARCH FOUNDATION

Funding vital research into head and neck cancer for a better future

## CHAIRMAN'S MESSAGE

During my 30 years as a surgeon dealing with cancer of the head and neck I have seen many changes in the assessment and treatment of patients afflicted by these diseases. These changes have been based on the findings of basic, translational and clinical research, it is the mission of the ANZHNCs to promote such research, for the benefit of our patients.

Our patients need support with the daunting challenges that they face, challenges which include speech and swallowing difficulties, and facial disfigurement, as well as the often life-threatening nature of their illness

I have great pleasure in inviting the community to join with us and help us achieve our goals by donating to this worthy cause. I thank you in advance for your generosity.

Associate Professor David Wiesenfeld

## WHO WE ARE

The ANZHNCs Research Foundation is a charitable organisation created by the ANZHNCs to foster research relating to the serious and malignant diseases that arise in and affect the head and neck area. Preservation of function

is also a critical component of what we strive for.

## OUR MISSION

The Foundation's Mission is to identify and provide direct support for those researchers working in established research facilities, to enable better understanding of the serious malignant diseases that arise in the head and neck.

The Foundation supports research to improve the outcome of patients affected by these cancers. Funds will be provided to leading research facilities as well as researchers to develop better understanding of how cancer arises and grows, and to improve treatment options.

## OUR VISION

To ensure that patients who have malignant disease arising in the head and neck can feel confident that all

efforts are being made to improve the cure rate, and their quality of life with an emphasis upon the preservation of those functions we all take for granted, such as speaking, swallowing and breathing.

To ensure a reduction in the number of patients who develop cancer in the head and neck.

*Medical science has proven time and again that when the resources are provided, great progress in the treatment, cure, and prevention of disease can occur."*

Michael J. Fox

## PLEASE HELP US

Head and Neck Cancer is proving to be an increasing burden in the Australian and New Zealand society.

The Australian and New Zealand Head & Neck Cancer Society Research Foundation is leading the search for prevention, cure and improvement of the quality of life for patients with head and neck cancer.

Help us achieve our goal by making a financial donation to the Foundation. Each donation will assist the funding of vital cancer research.

## ANZHNCs Foundation Donation Form

Name: \_\_\_\_\_

Address: \_\_\_\_\_  
\_\_\_\_\_

Phone: \_\_\_\_\_
